

THERE IS ONLY ONE YOU.

[illegible]

Certain identities are not!

Michael Tracey 
@mtracey

The former Israeli prime minister Naftali Bennett just confirmed what any rational observer could've surmised: Russia and Ukraine reached a preliminary agreement during the early phase of the war — "Both sides very much wanted a ceasefire," Bennett said — but the US "blocked it"

 Readers added context they thought people might want to know

Bennett did not say that either ceasefire or a peace deal was blocked. He said:

- Further effort to negotiate was stopped
- Decision was legitimate and he agrees
- Unsure the deal would be reached
- Deal had serious risks

Bennett also issued clarification to that effect:

Certain identities you can use everywhere...

Certain identities you can use only here!

Certain identities keep you private...

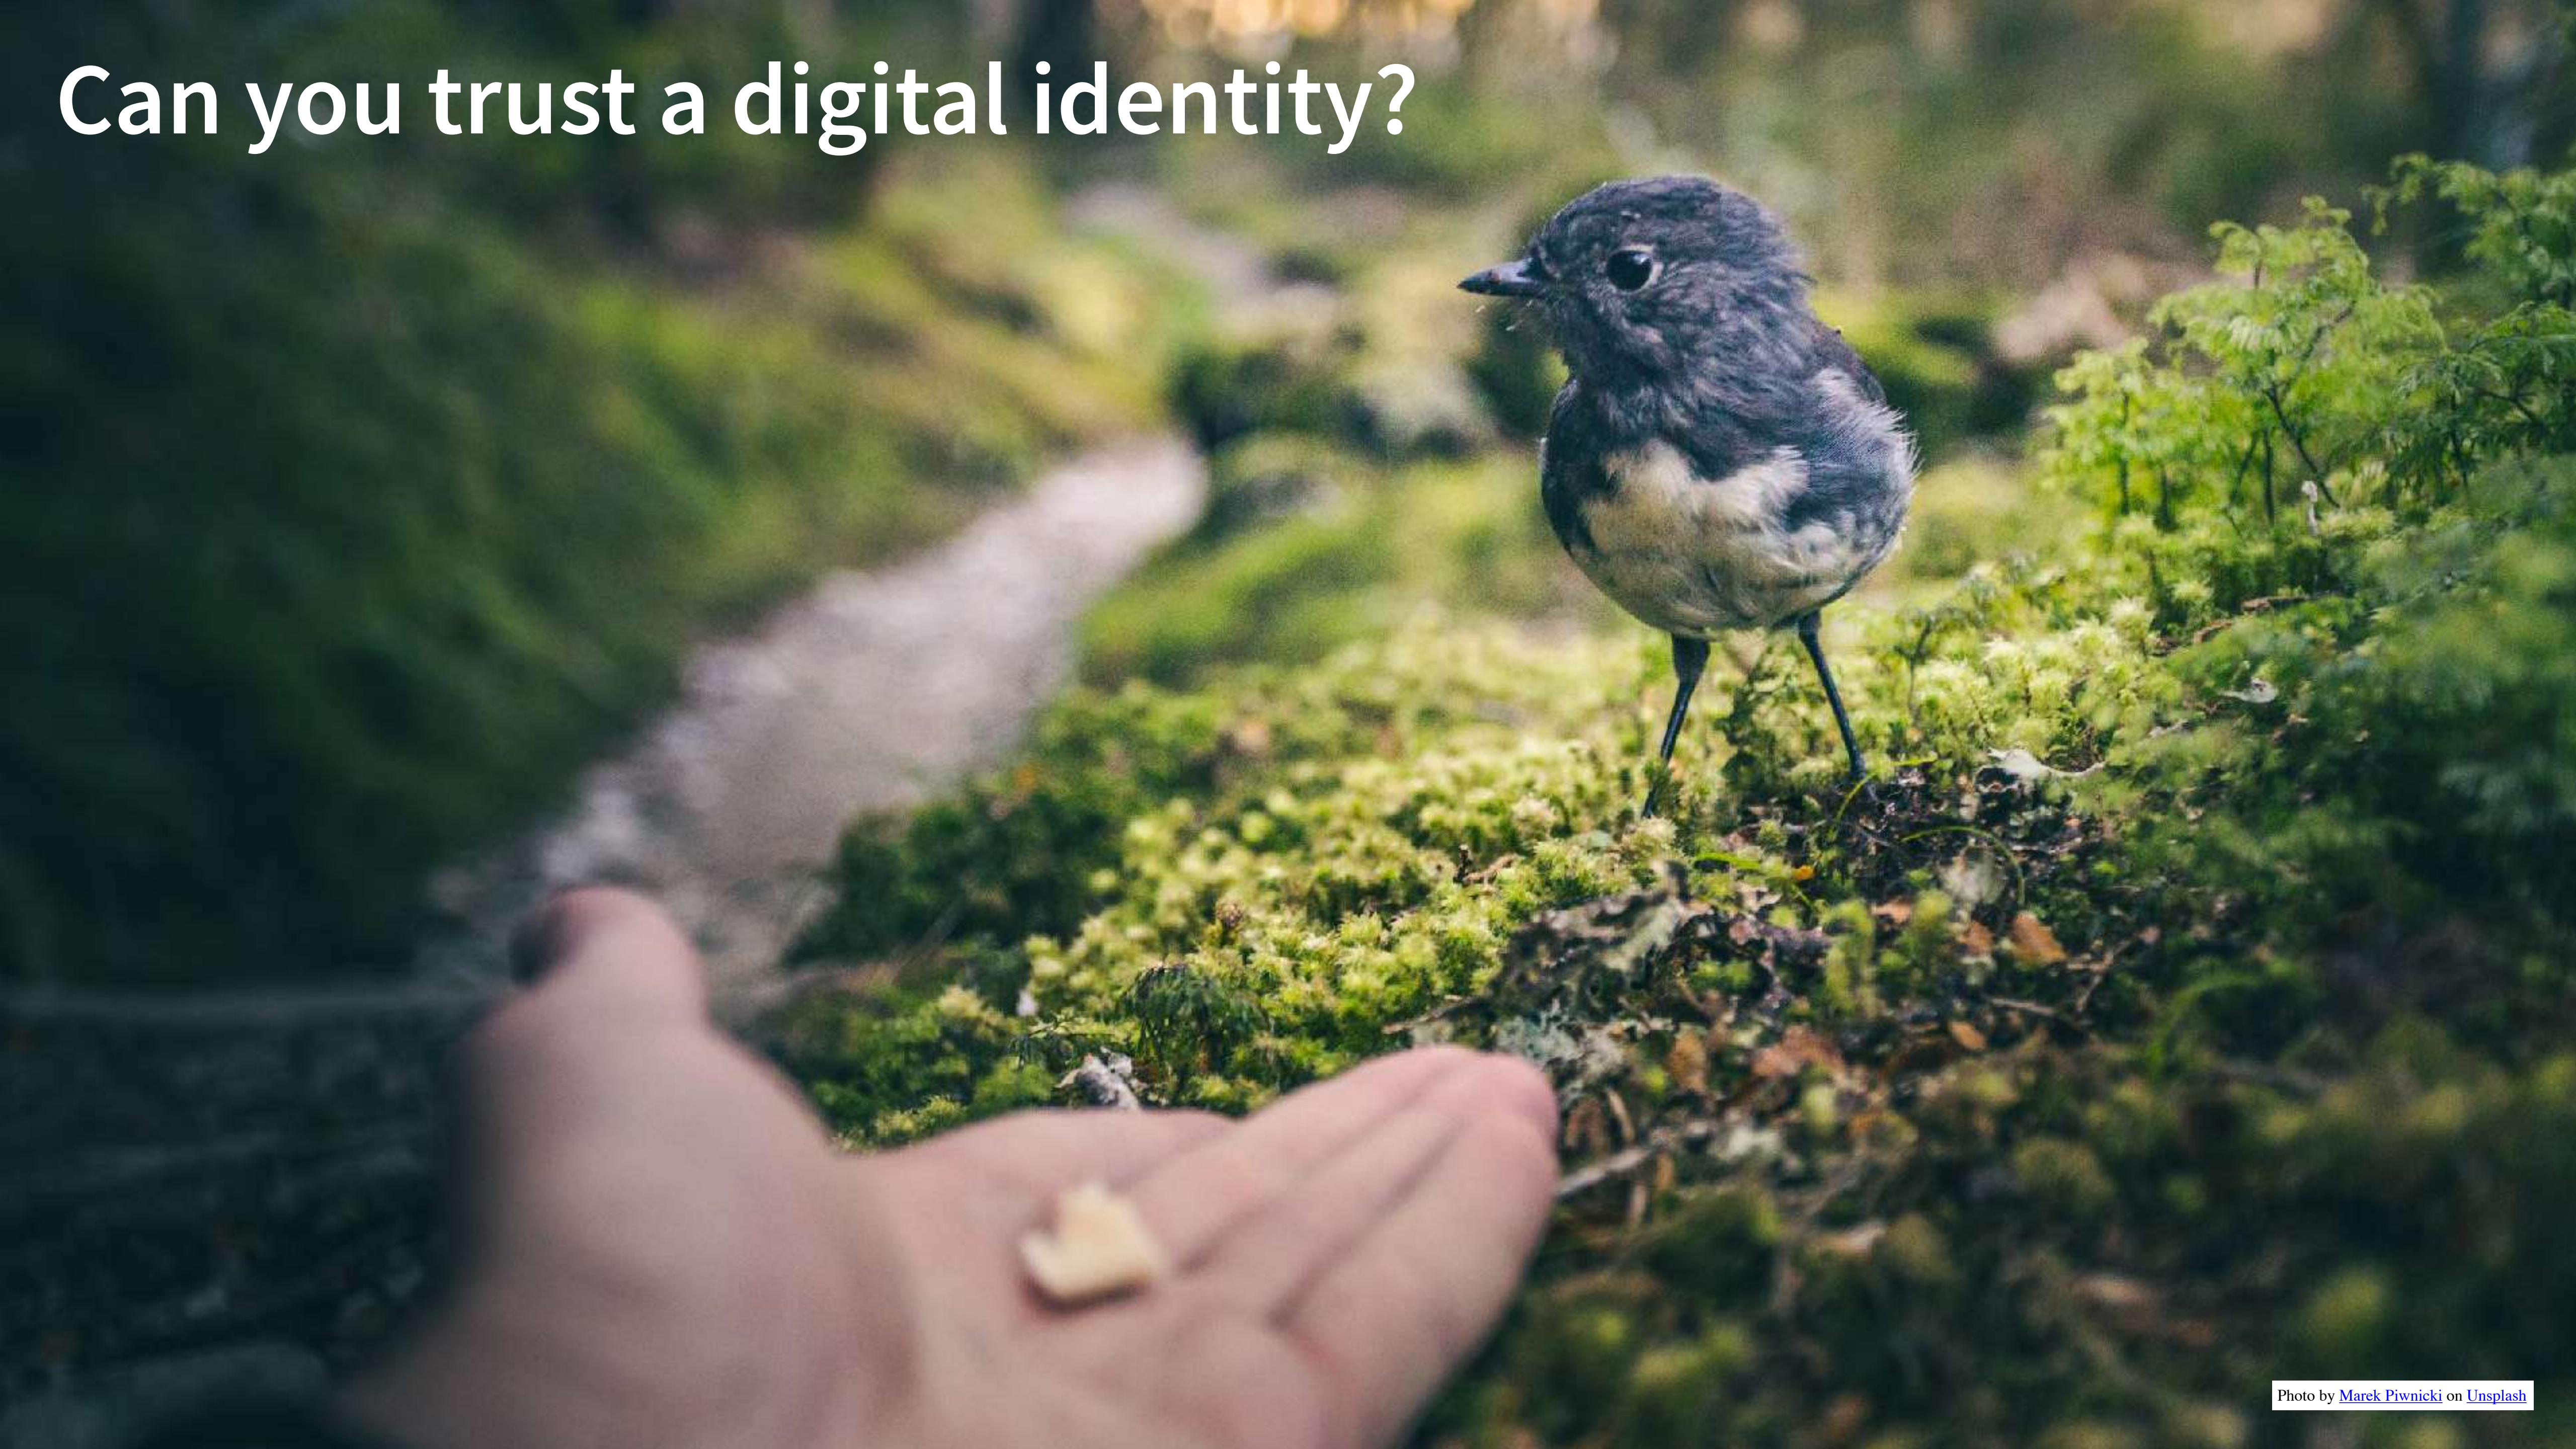

Certain identities track you everywhere!!!

We collect information about the **people, accounts, hashtags and Facebook groups and Pages** you are connected to and how you interact with them **across our Products**, such as **people you communicate with the most or groups you are part of**. We also collect **contact information** if you choose to upload, sync or import it from a device (such as an **address book or call log or SMS log history**), which we use for things like helping you and others find people you may know and for the other purposes listed below.

Can you trust a digital identity?

Identification with the Verimi ID Wallet - how it works:

1

Start opening an account with a service like a bank or a car sharing service.

2

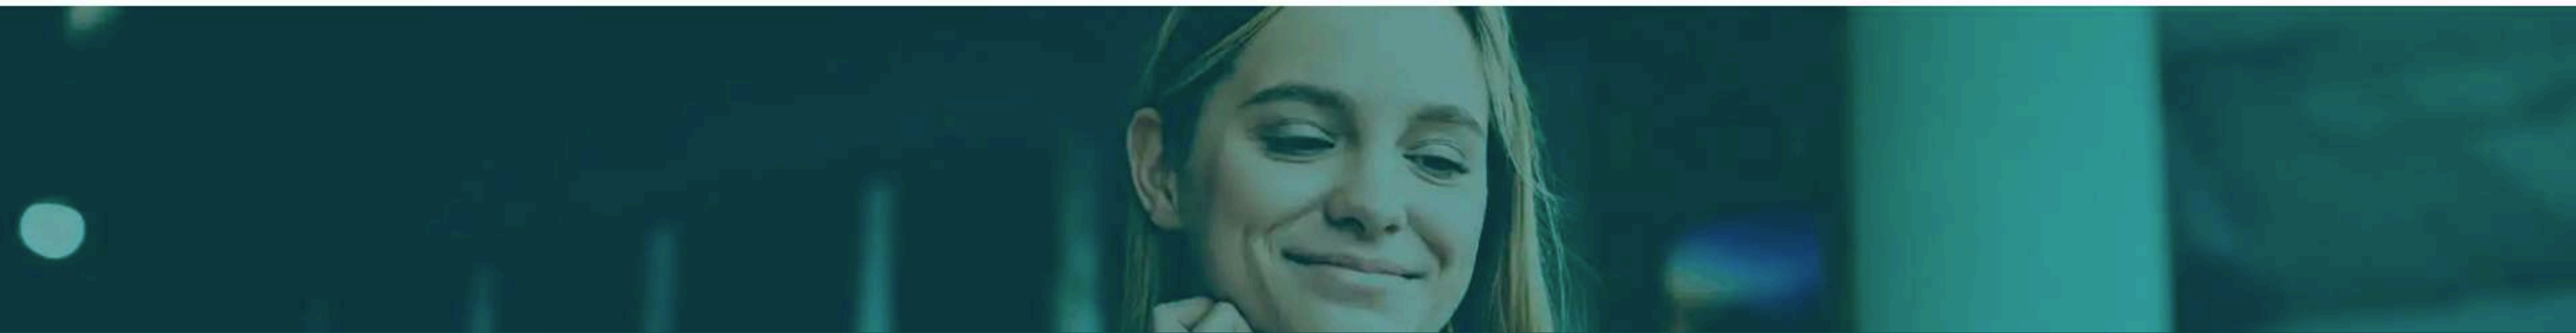

Log in with the Verimi button and transfer identity data.

3

Identify yourself online and complete the account opening.

About us. About Verimi.

We develop solutions for the digital identity management of the future. We are a joint venture. Our partners include Allianz, Axel Springer, Bundesdruckerei, Daimler, Deutsche Bahn, Deutsche Bank, Deutsche Telekom, Giesecke & Devrient, Lufthansa, Samsung, and Volkswagen.

WHY NOT???

A compromised identity
was responsible for

90%+

breaches in 2022.

A woman wearing a blue hijab is looking at a laptop screen. The background is a blurred city skyline at night. The text is overlaid on the right side of the image.

In 2022

50%+

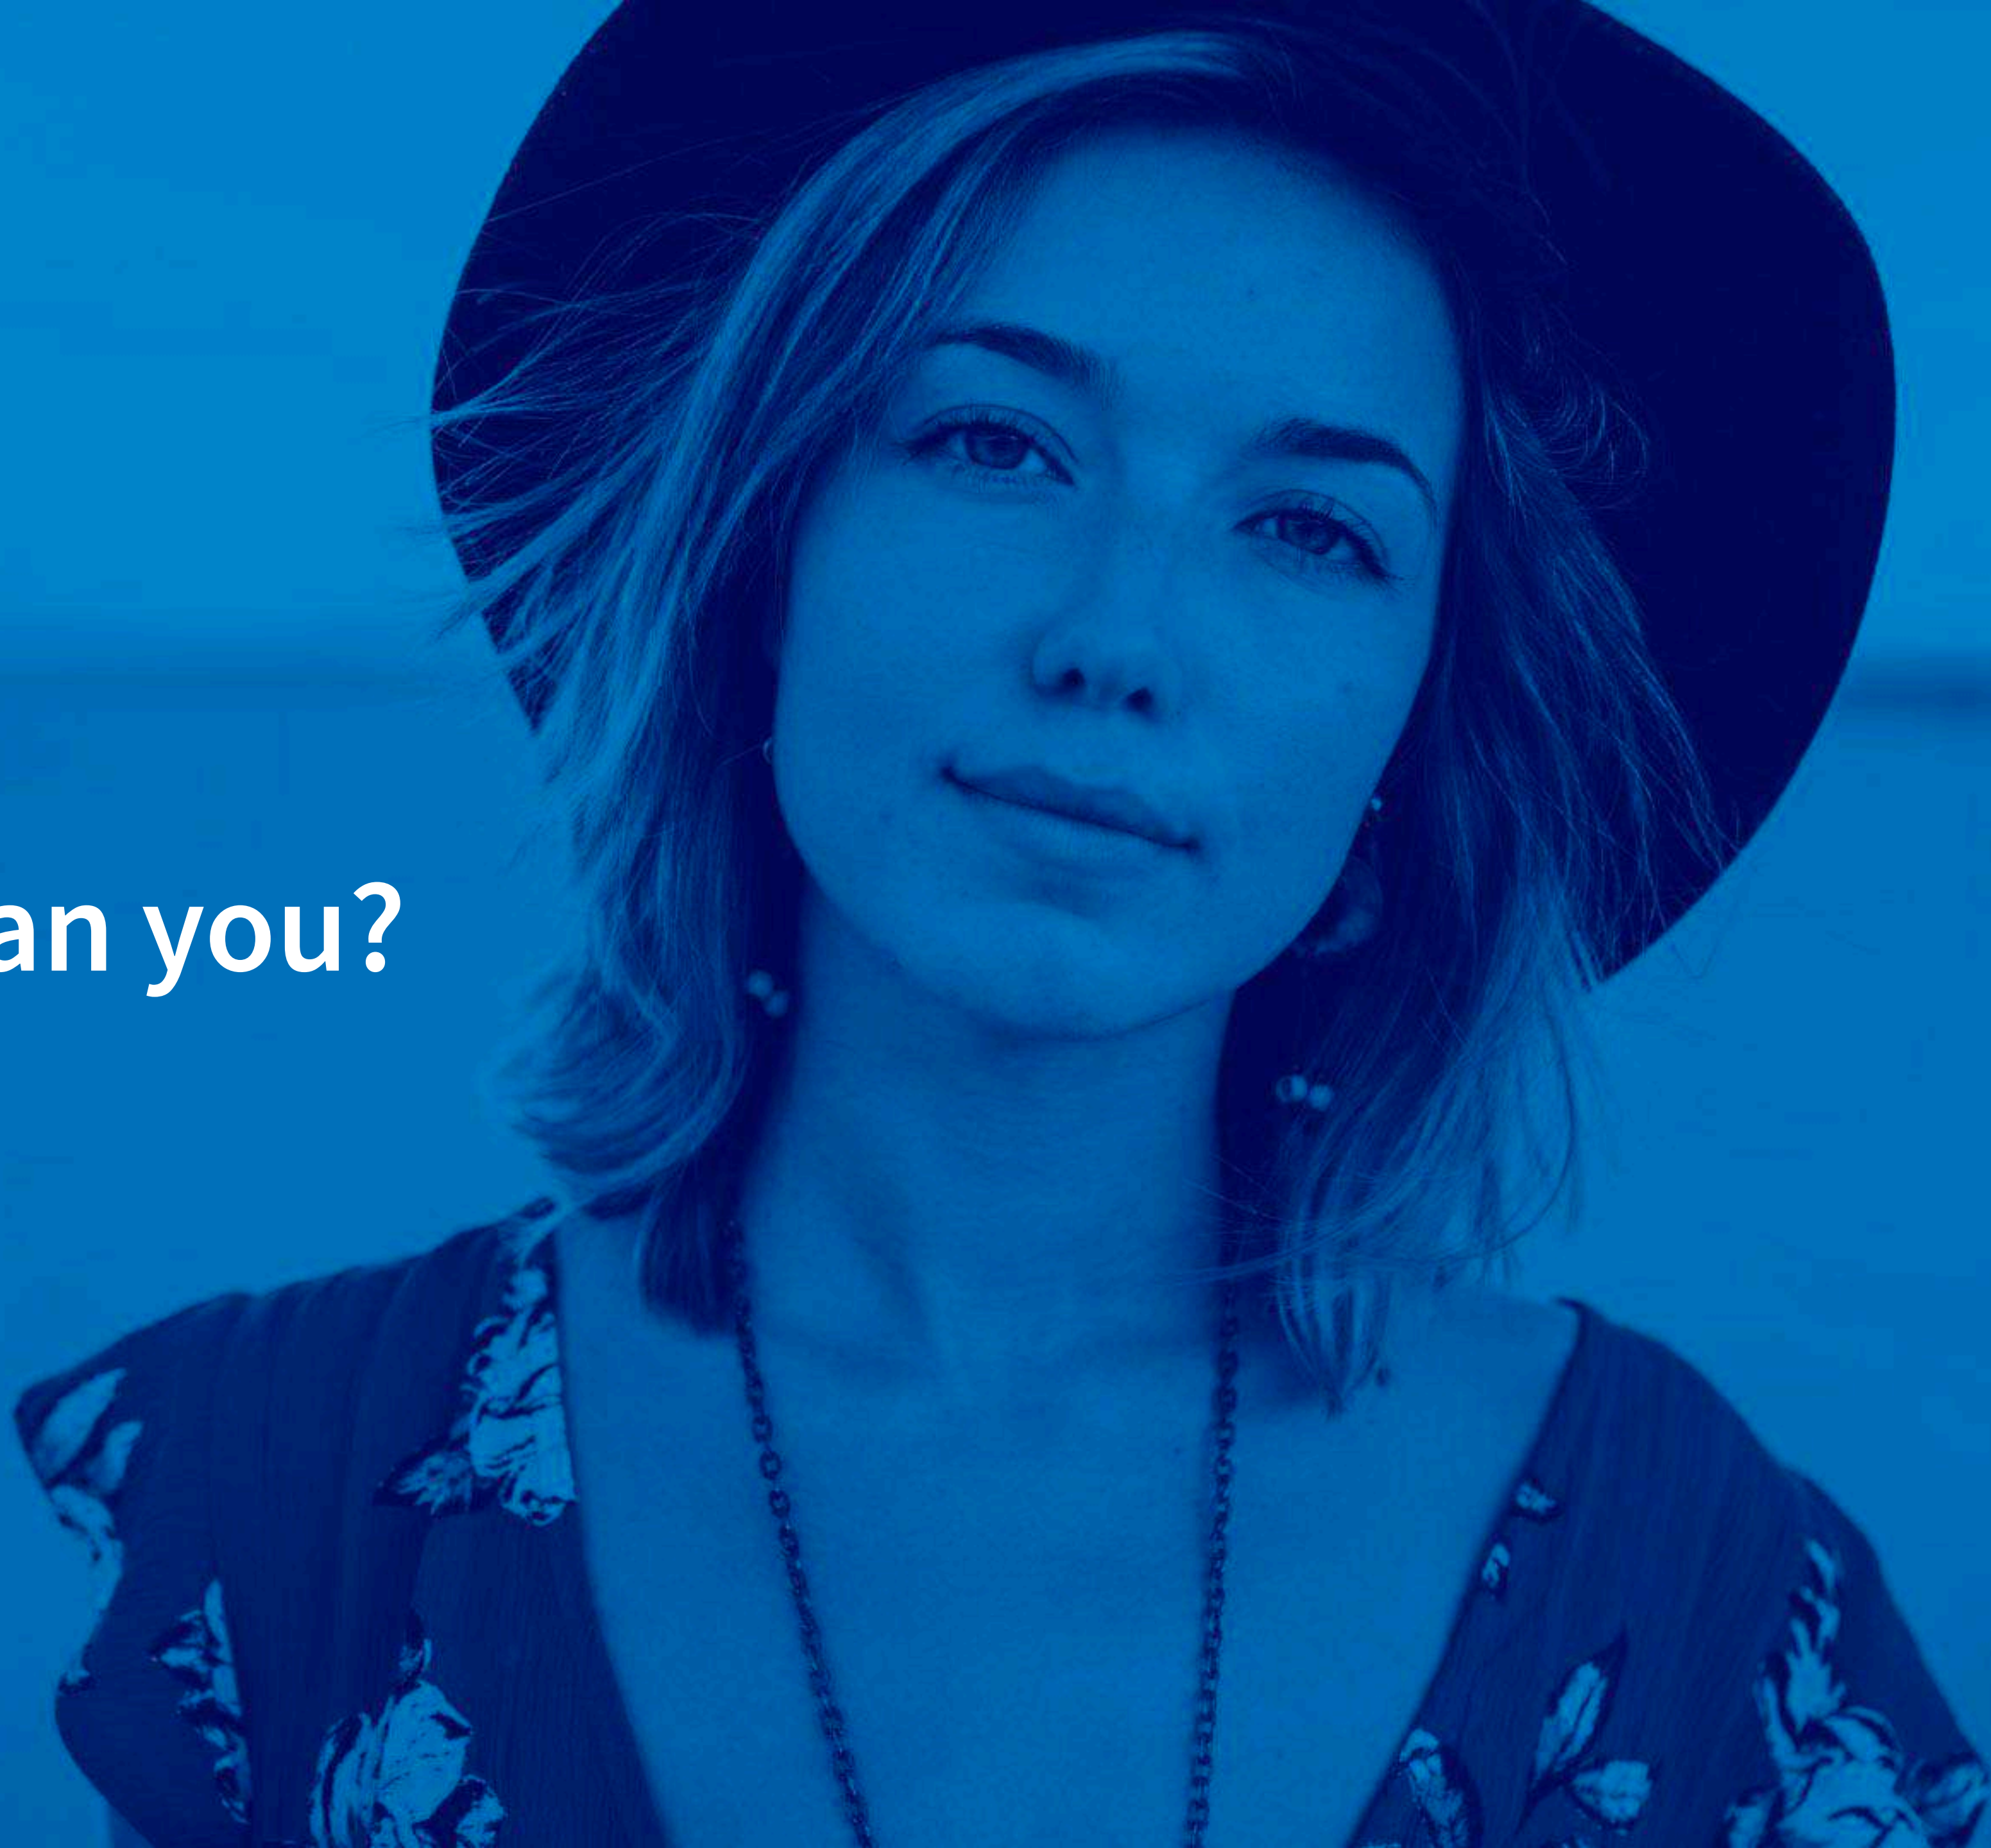

of organizations faced
insider threats

**You do not
trust who
is behind
the digital
identity!**

So how can you?

Prevent account take over.

**Credential
Phishing**

**Attacker
in the middle
(AiTM)**

**Password
based attack**

Decentralized Identities.

Transitive trust.

One Govt. Issued ID

Multiple Trustworthy Digital Identities

Certain identities are super easy to use...

Happy Customers.
